

Europe's most popular EAS accessories at the best possible price.

Midi Spider tag

A small device with big impact. The Midi Spider comes with Dual (AM and RF) frequency and is equipped with 2-alarm technology; 1) it will generate an alarm by the loss prevention system installed at the store exit when its passing the detection field and 2) it will give a loud alarm when the cable is cut.

The Midi Spider has a 800mm lanyard and is therefore ideal to secure small to medium sized cartons.
