## E U R O P E

**Europe's most popular EAS accessories at the best possible price.**

# 2 output RF Deactivator (electronic unit)

This deactivator, similar to our popular single-output model, offers enhanced functionality for businesses requiring multi-zone deactivation and integration with scanner loops.

## Key features

- **Dual outputs:** Deactivate tags simultaneously at two different locations, ideal for back-to-back POS..
- **Scanner loop compatibility:** Connects seamlessly with existing scanner loop systems for automatic deactivation as labels pass through designated areas.
- **Reliable deactivation:** Ensures smooth product flow by effectively deactivating security labels..
- **Easy installation:** Integrates effortlessly into your existing security system.
- **Durable design:** Built to withstand the demands of everyday use.

## Idael for

- Retail stores with multiple POS or SCO
- Super / Hypermarkets
- Back-to-Back checkouts
- Any application requiring multi-zone deactivation or scanner loop integration
